

Monad of the Month: January 2020

Monad y Mis: Ionawr 2020

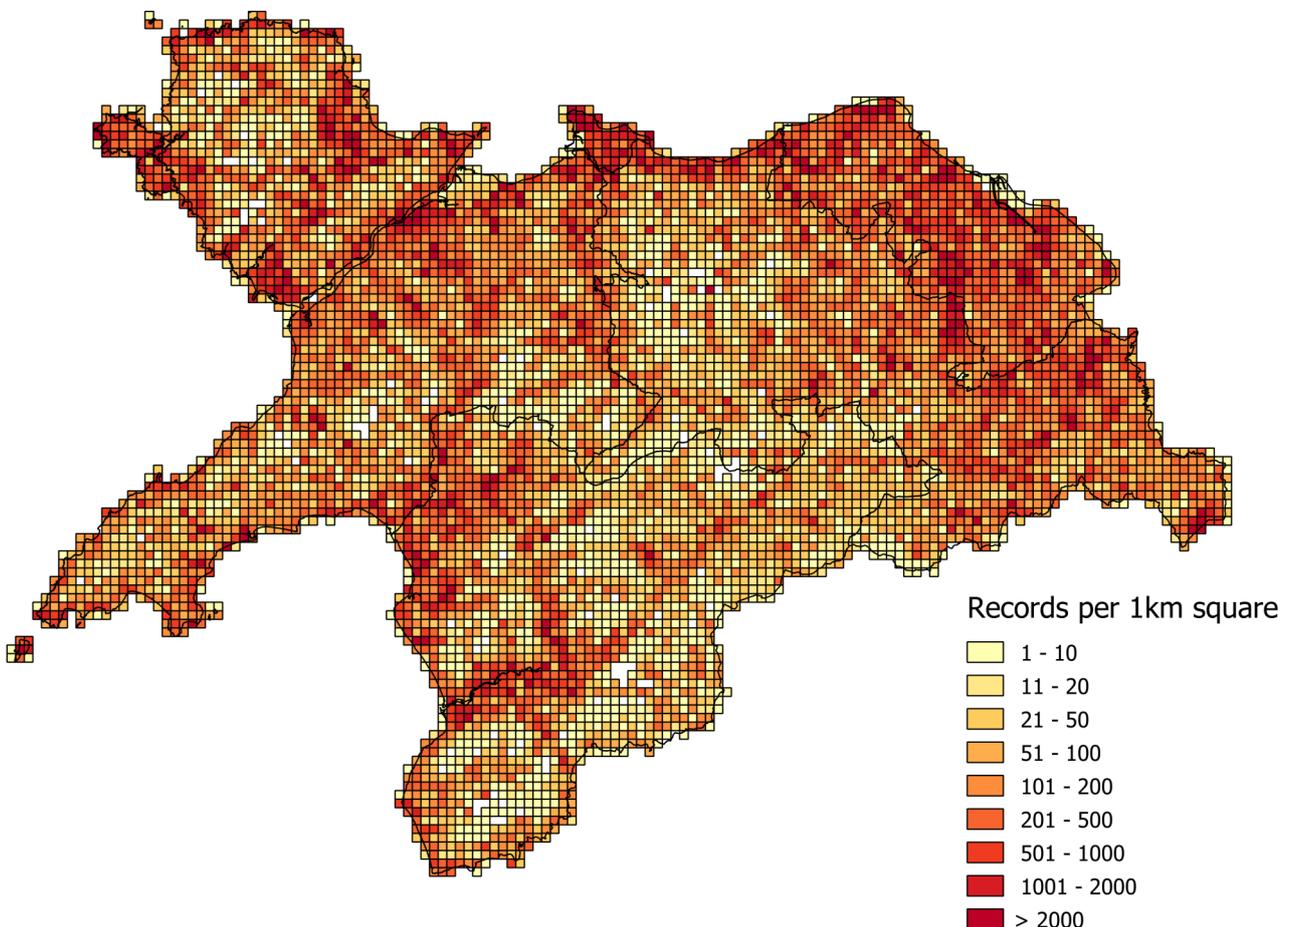

Every month we will be providing maps and information about poorly recorded monads in North Wales to encourage recorders to get out to locations with few or zero records. We will initially be targeting squares with zero or fewer than 20 records. Scroll down for maps and details of each of these squares.

The map below shows the variation in recording coverage across North Wales.

Bob mis fe fyddwn ni'n darparu mapiau a gwybodaeth am fonadau sydd wedi'u cofnodi'n wael yng Ngogledd Cymru er mwyn ceisio annog cofnodwyr i godi allan i leoliadau heb lawer o gofnodion, os o gwbl. I ddechrau, byddwn yn targedu sgwariau heb ddim cofnodion neu lai nag 20 o gofnodion. Sgroliwch i lawr am fapiau a manylion am bob un o'r sgwariau yma.

Mae'r map isod yn dangos yr amrywiad mewn cofnodi ledled Gogledd Cymru.

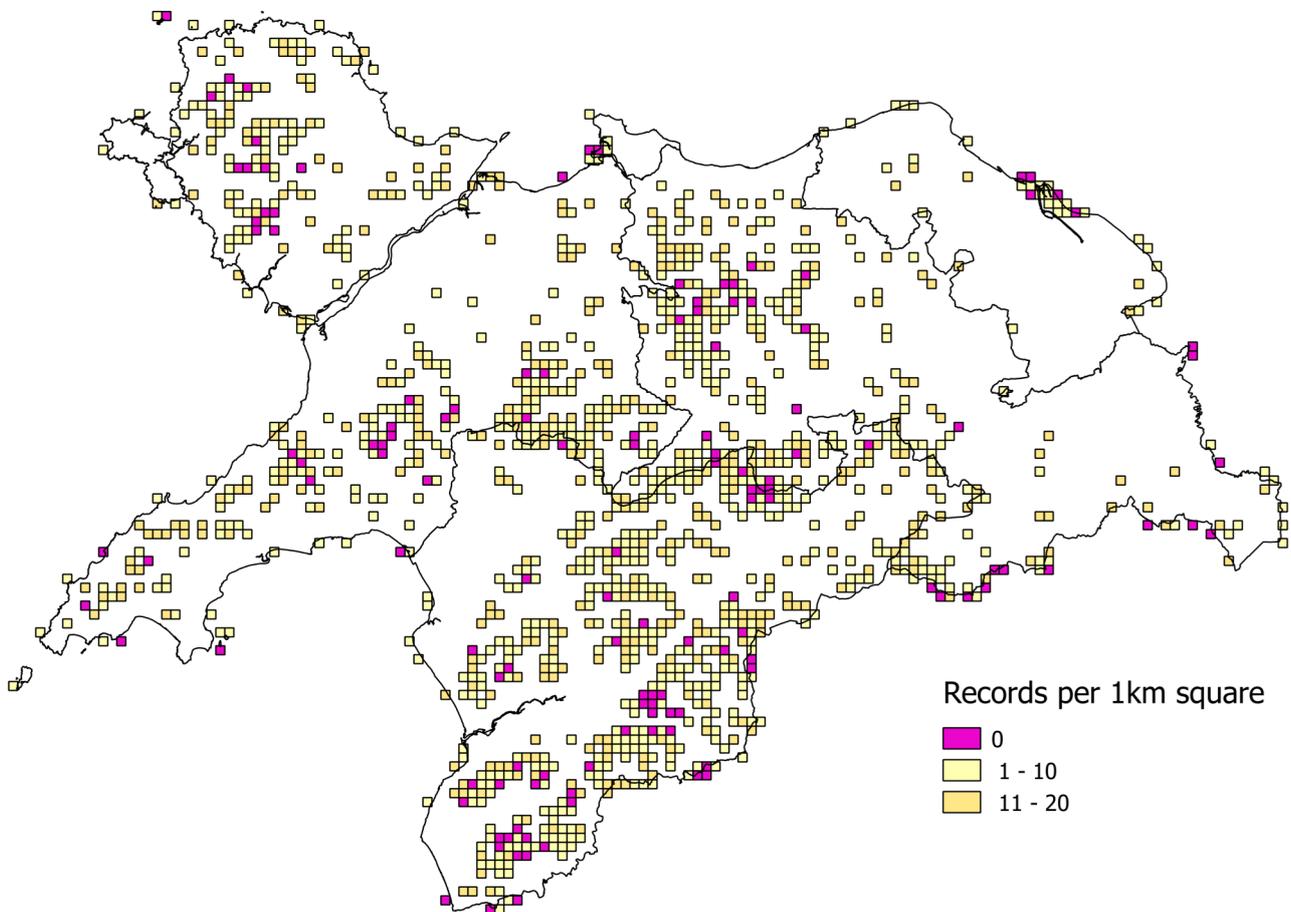

Cofnod records per 1km square October 2019

This map shows where we hold twenty or fewer records. The pink squares denote monads with zero records. It should be noted that some of these fall along the coastline in monads with very little land. These record density maps do not illustrate the coverage of different taxon groups and this is something that we may focus on in the future.

Mae'r map yma'n dangos ble mae gennym ni ugain neu lai o gofnodion. Mae'r sgwariau pinc yn dynodi monadau heb ddim cofnodion. Dylid nodi bod rhai o'r rhain i'w gweld ar hyd yr arfordir mewn monadau heb lawer iawn o dir. Nid yw'r mapiau dwysedd cofnodion yma'n dangos y sylw i wahanol grwpiau tacson ac mae hyn yn rhywbeth y byddwn yn canolbwyntio arno yn y dyfodol efallai.

Monads with less than 20 records (Cofnod October 2019)

Monad of the Month: January 2020

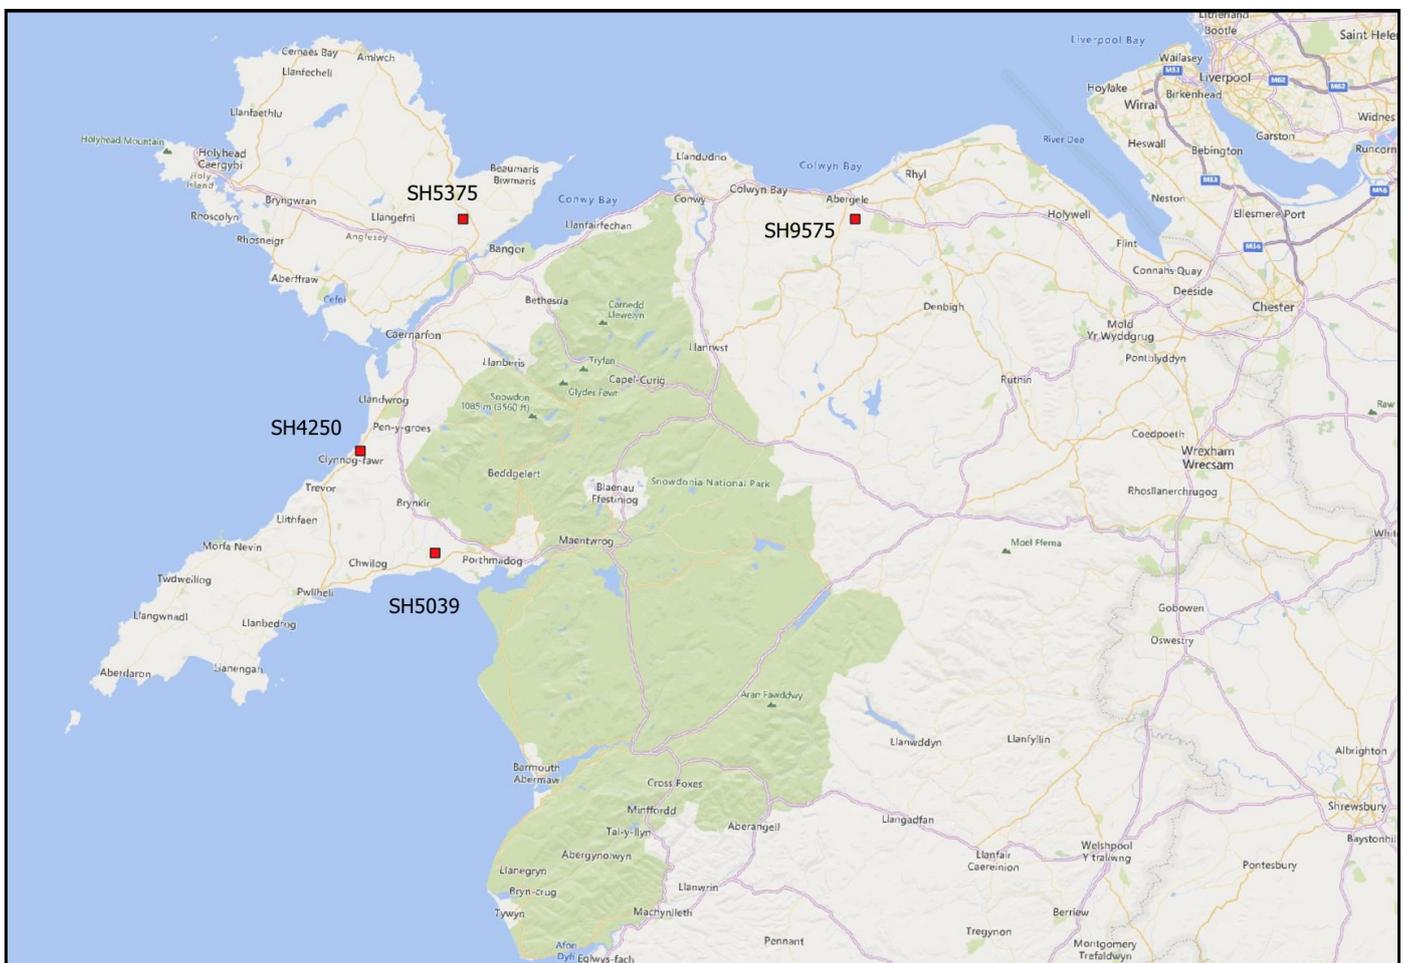

Monad y Mis: Ionawr 2020

Squares for January's monad of the month have been selected using three criteria: monads without any bird records, monads where only one or two species groups have been recorded in the past, and monads which are relatively accessible given the time of year. Four monads have been selected, three of which have less than 10 previous records. The remaining monad has only plant and mammal records. They are SH5375 near Menai Bridge, SH4250 near Clynnog Fawr, SH9575 near Abergele and SH5039 near Criccieth.

Can you help fill in some of these gaps? Scroll down for maps and details of each of these squares.

Mae'r sgwariau ar gyfer monad y mis ym mis Ionawr wedi cael eu dewis gan ddefnyddio tri maen prawf: monadau heb unrhyw gofnodion o adar, monadau lle mae dim ond un neu ddau o grwpiau o rywogaethau wedi'u cofnodi yn y gorffennol a monadau sy'n gymharol hygyrch o ystyried yr adeg o'r flwyddyn. Mae pedwar monad wedi cael eu dewis, gyda thri â llai na 10 cofnod blaenorol. Dim ond un cofnod am blanhigion a mamaliaid sydd gan y monad arall. Y monadau yw SH5375 ger Porthaethwy, SH4250 ger Clynnog Fawr, SH9575 ger Abergele a SH5039 ger Criccieth.

Fedwch chi helpu i lenwi rhai o'r bylchau yma? Sgroliwch i lawr am fapiau a manylion am bob un o'r sgwariau yma.

Monad of the Month: Anglesey

Monad y Mis: Ynys Môn

Ionawr ○ January 2020: Near Treffos [SH5375](#)

cofnod
Gwasanaeth Gwybodaeth Amgylcheddol Gogledd Cymru
North Wales Environmental Information Service

Location

SH5375 is a couple of miles north of Menai Bridge just west of the A5025.

Public access

A single footpath crosses the square.

Previous records

Cofnod holds 5 records for SH5375: 1 species of moss and 3 species of bat.

Lleoliad

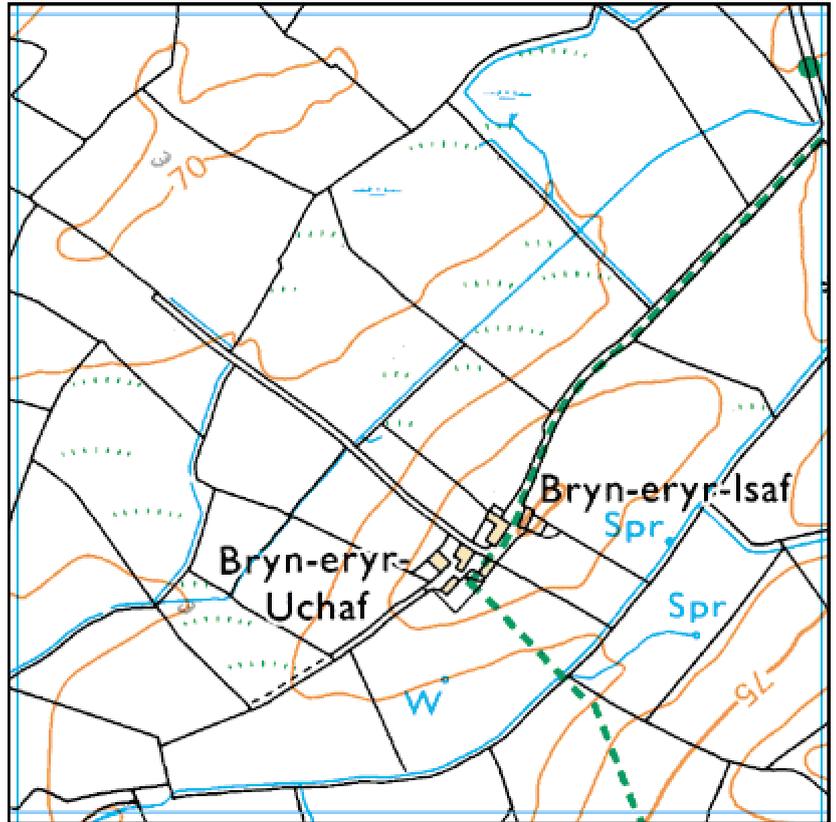

Mae SH5375 ryw ddwy filltir i'r gogledd o Borthaethwy ychydig i'r gorllewin o'r A5025.

Mynediad cyhoeddus

Mae llwybr troed sengl yn croesi'r sgwâr.

Cofnodion blaenorol

Mae gan Cofnod 5 o gofnodion ar gyfer SH5375: 1 rhywogaeth o fwsogl a 3 rhywogaeth o ystlum.
