

# Monad of the Month: March 2020

## Monad y Mis: Mawrth 2020

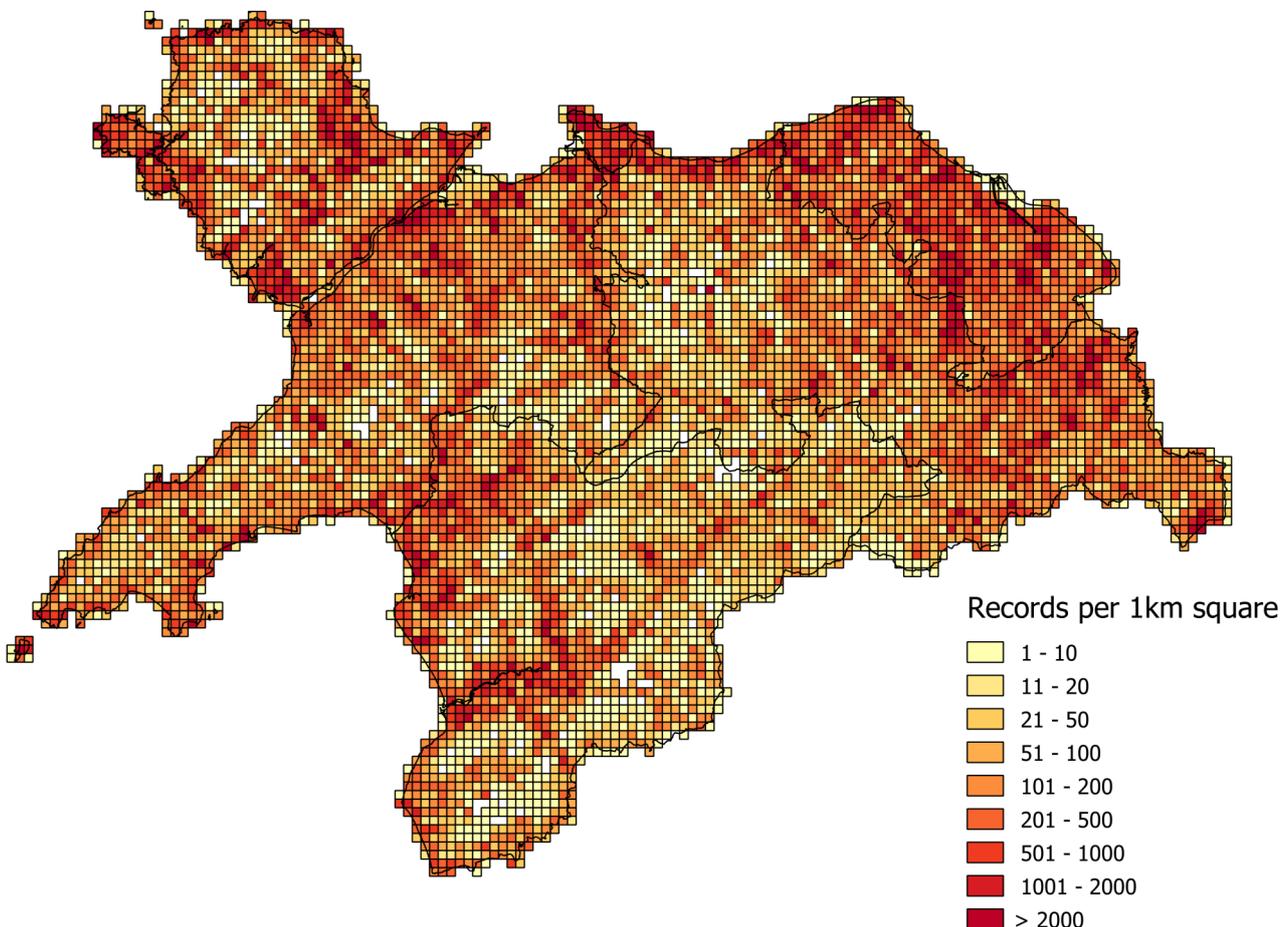

Every month we will be providing maps and information about poorly recorded monads in North Wales to encourage recorders to get out to locations with few or zero records. We will initially be targeting squares with zero or fewer than 20 records. Scroll down for maps and details of each of these squares.

The map below shows the variation in recording coverage across North Wales.

Bob mis fe fyddwn ni'n darparu mapiau a gwybodaeth am fonadau sydd wedi'u cofnodi'n wael yng Ngogledd Cymru er mwyn ceisio annog cofnodwyr i godi allan i leoliadau heb lawer o gofnodion, os o gwbl. I ddechrau, byddwn yn targedu sgwariau heb ddim cofnodion neu lai nag 20 o gofnodion. Sgroliwch i lawr am fapiau a manylion am bob un o'r sgwariau yma.

Mae'r map isod yn dangos yr amrywiad mewn cofnodi ledled Gogledd Cymru.

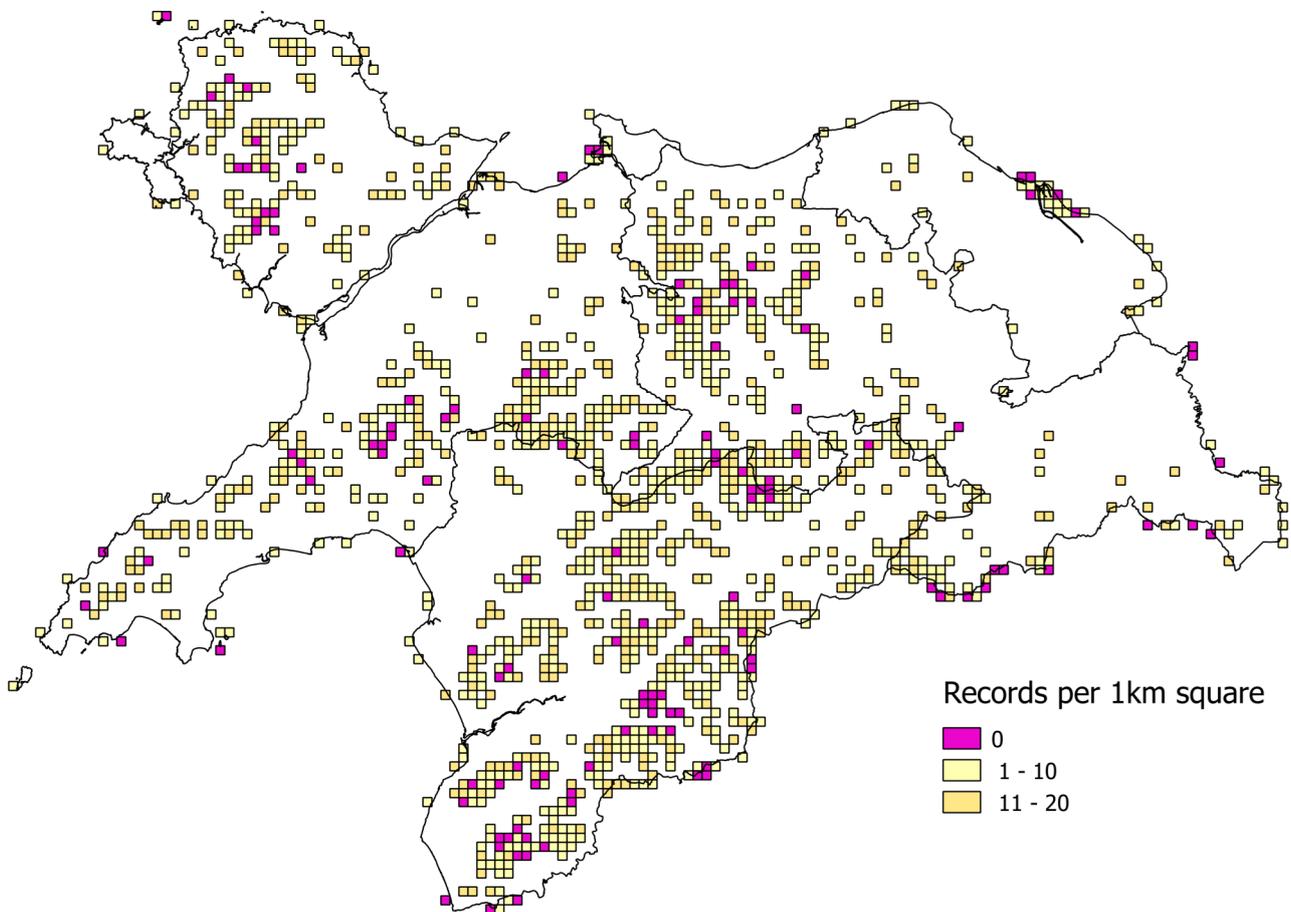

### Cofnod records per 1km square October 2019

This map shows where we hold twenty or fewer records. The pink squares denote monads with zero records. It should be noted that some of these fall along the coastline in monads with very little land. These record density maps do not illustrate the coverage of different taxon groups and this is something that we may focus on in the future.

Mae'r map yma'n dangos ble mae gennym ni ugain neu lai o gofnodion. Mae'r sgwariau pinc yn dynodi monadau heb ddim cofnodion. Dylid nodi bod rhai o'r rhain i'w gweld ar hyd yr arfordir mewn monadau heb lawer iawn o dir. Nid yw'r mapiau dwysedd cofnodion yma'n dangos y sylw i wahanol grwpiau tacson ac mae hyn yn rhywbeth y byddwn yn canolbwyntio arno yn y dyfodol efallai.

## Monads with less than 20 records (Cofnod October 2019)

# Monad of the Month: March 2020

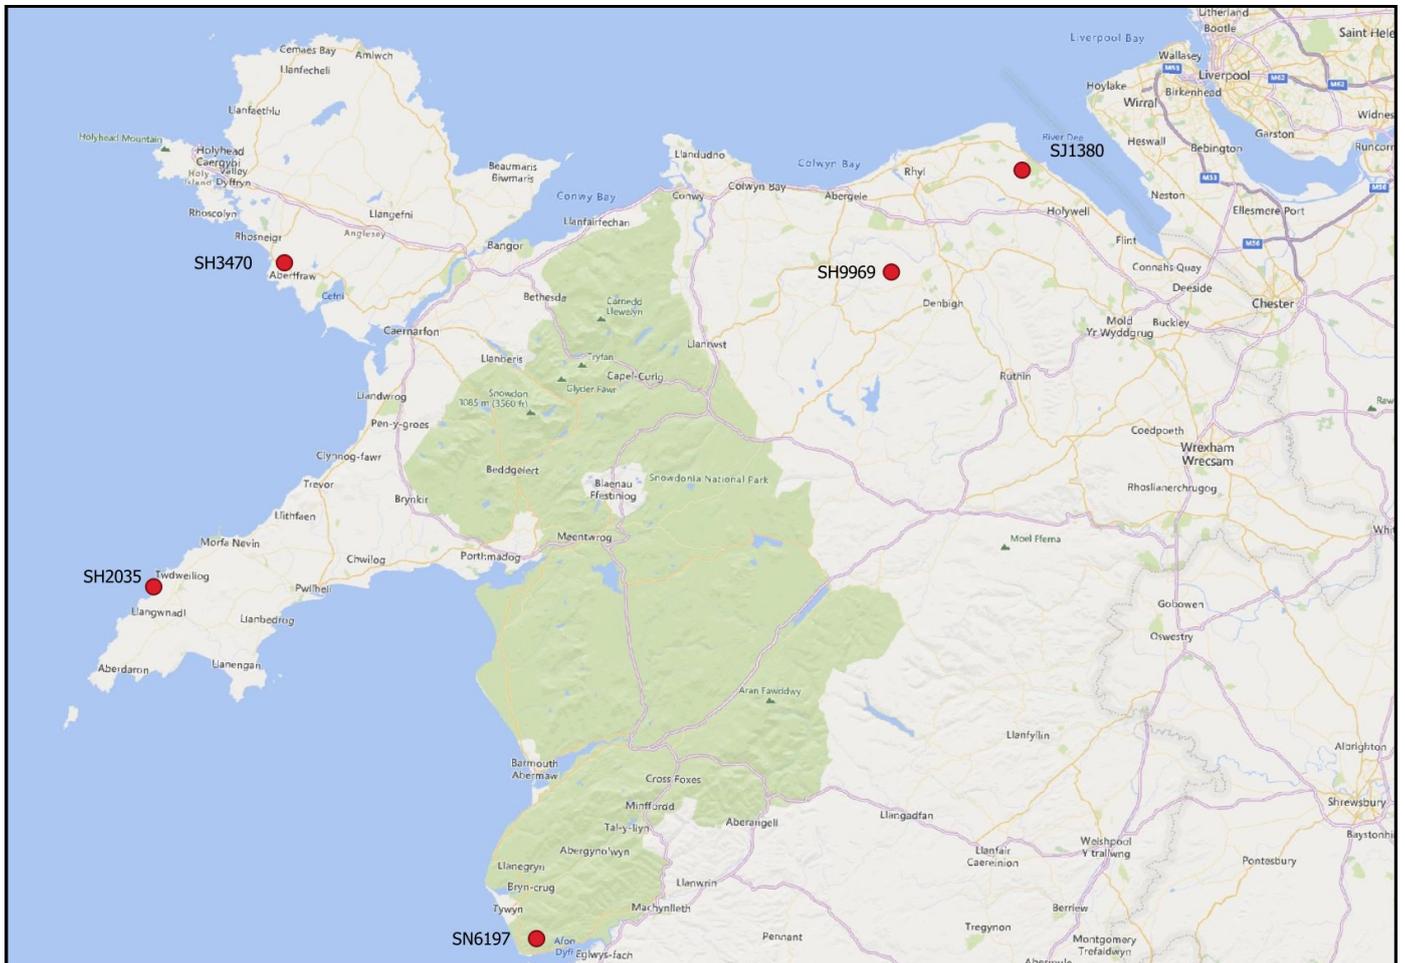

## Monad y Mis: Mawrth 2020

Squares for March's monad of the month have been selected using three criteria: monads which are relatively accessible especially given the time of year, monads with few or no bird records and monads with relatively few records over all. All the squares have less than 30 records with the exception of SH2035 on the coast of the Llŷn Peninsula which has 420 marine records but no terrestrial records. Only one square has any bird records, SH3470 near Aberffraw on Anglesey where a single species has been recorded. The other squares are SJ1380 near Mostyn in Flintshire, SH9969 in Denbighshire and SN6197 just north of Aberdyfi.

Can you help fill in some of these gaps? Scroll down for maps and details of each of these squares.

Mae sgwariau monad y mis ar gyfer mis Mawrth wedi cael eu dewis gan ddefnyddio tri maen prawf: monadau cymharol hygyrch, yn enwedig o ystyried yr adeg o'r flwyddyn, monadau gyda llai neu ddim cofnodion o adar, a monadau gyda chofnodion cymharol brin yn gyffredinol. Mae gan bob sgwâr lai na 30 o gofnodion ac eithrio SH2035 ar arfordir Penrhyn Llŷn sydd â 420 o gofnodion morol ond dim cofnodion am y tir. Dim ond un sgwâr sydd ag unrhyw gofnodion am adar, SH3470, ger Aberffraw ar Ynys Môn, lle mae un rhywogaeth wedi'i chofnodi. Y sgwariau eraill yw SJ1380 ger Mostyn yn Sir y Fflint, SH9969 yn Sir Ddinbych a SN6197 ychydig i'r gogledd o Aberdyfi.

Fedwch chi helpu i lenwi rhai o'r bylchau yma? Sgrolwch i lawr am fapiau a manylion am bob un o'r sgwariau yma.
