

Monad of the Month: November 2019

Monad y Mis: Tachwedd 2019

Every month we will be providing maps and information about poorly recorded monads in North Wales to encourage recorders to get out to locations with few or zero records. We will initially be targeting squares with zero or fewer than 20 records. Scroll down for maps and details of each of these squares.

The map below shows the variation in recording coverage across North Wales.

Bob mis fe fyddwn ni'n darparu mapiau a gwybodaeth am fonadau sydd wedi'u cofnodi'n wael yng Ngogledd Cymru er mwyn ceisio annog cofnodwyr i godi allan i leoliadau heb lawer o gofnodion, os o gwbl. I ddechrau, byddwn yn targedu sgwariau heb ddim cofnodion neu lai nag 20 o gofnodion. Sgroliwch i lawr am fapiau a manylion am bob un o'r sgwariau yma.

Mae'r map isod yn dangos yr amrywiad mewn cofnodi ledled Gogledd Cymru.

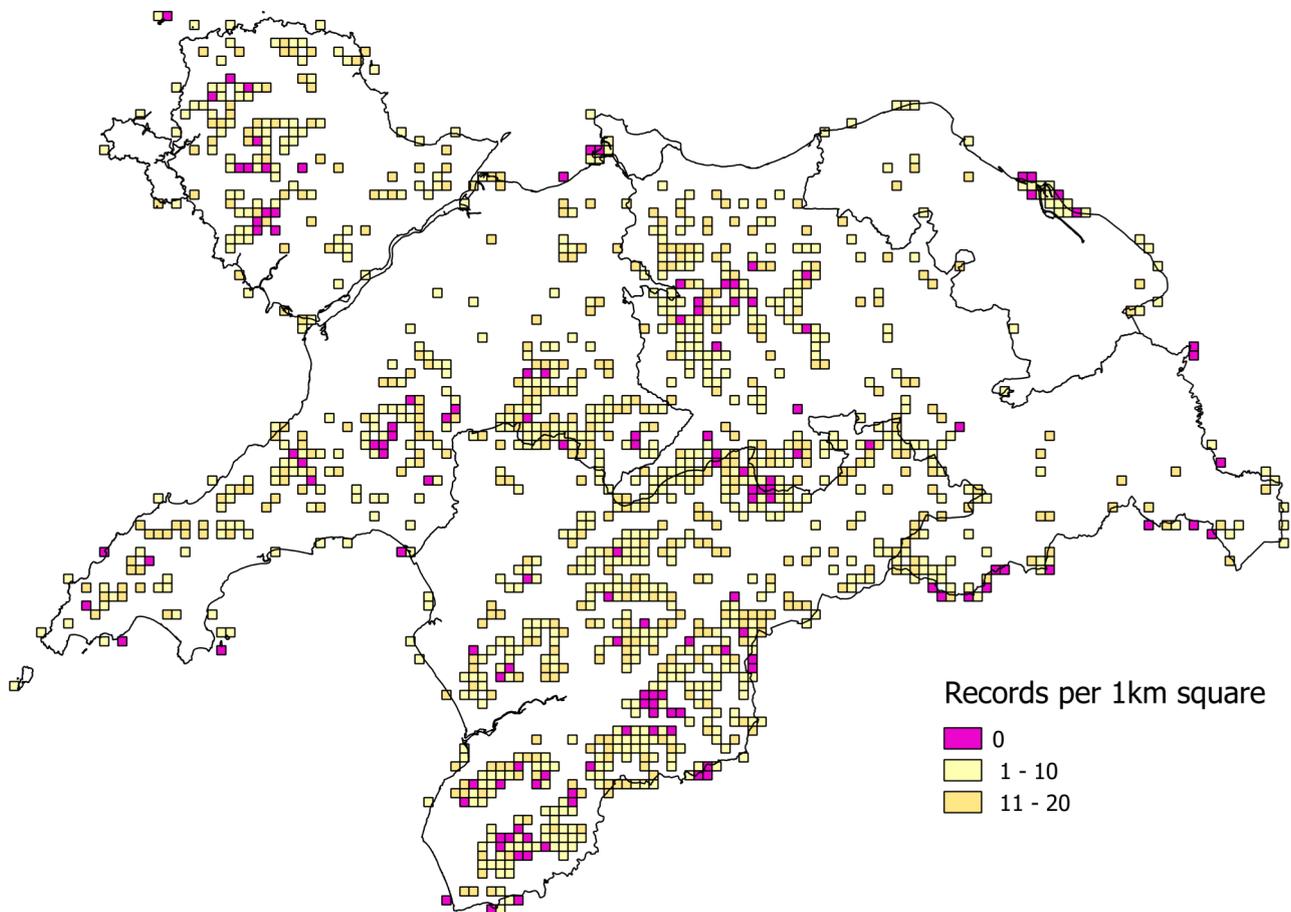

Cofnod records per 1km square October 2019

This map shows where we hold twenty or fewer records. The pink squares denote monads with zero records. It should be noted that some of these fall along the coastline in monads with very little land. These record density maps do not illustrate the coverage of different taxon groups and this is something that we may focus on in the future.

Mae'r map yma'n dangos ble mae gennym ni ugain neu lai o gofnodion. Mae'r sgwariau pinc yn dynodi monadau heb ddim cofnodion. Dylid nodi bod rhai o'r rhain i'w gweld ar hyd yr arfordir mewn monadau heb lawer iawn o dir. Nid yw'r mapiau dwysedd cofnodion yma'n dangos y sylw i wahanol grwpiau tacson ac mae hyn yn rhywbeth y byddwn yn canolbwyntio arno yn y dyfodol efallai.
