

Smut and Allied Fungi of Wales: A Guide, RDL and Census Catalogue

By Woods, Chater, Smith, Stringer and Evans

This report aims to be an introduction to the Welsh Smuts and Allied Fungi. Through brief descriptions and illustrations we hope that once the host is known, nearly all known Welsh species can be identified by using this guide. All species have been assessed for their conservation status and a Census Catalogue for Wales is included.

Copies of the A4 book (83 pages) cost £6 plus p&p and can be obtained by contacting Ray Woods: raygwoods@aol.com
(Also available from Summerfield Books & NHBS)
